American Orthodontics' Elastomeric Information

The following American Orthodontics' product is made with natural rubber:

- The Wildlife Series™

Please Note: Patients with an identified latex allergy should not use latex elastics. If irritation occurs, immediately discontinue use and consult a physician.

The following American Orthodontics' products are not made with natural rubber and are considered safe for patients with identified latex allergy:

- Colored Ligatures (6 Sticks, Unisticks, 10 Ring)
- Colored Chain (Closed, Short, Long)
- Sea Life Elastics™
- Memory Chain
- E-Z Tie Tubing
- Plastic Tie
- Arch Wire Sleeve
- Clear Rotation Wedges
- X-Ring Separators
- M.A.P. (Mini-Activator Posturer)
- IOA (Inter Occlusal Appliance)
- Cheek Retractors

American Orthodontics provides the above information in good faith and on the information available. Additionally, federal law restricts the sale of the listed devices to use by or on the order of a dentist or orthodontist. It is the sole responsibility of the trained dental professional, dentist, and/or orthodontist to assess, identify and relay to the patient any potential risks that may occur with the use of products made with/without natural rubber.
